

# Star Ornament Template with Reticula

Cris Letourneau  
TangledUpInArt.com

Tangle inside the star. Color if desired, then cut out the star. Mountain fold the line through each tip. Gently invert the short part of the line from the center of the star to the edge opposite each tip. Punch a hole or add a string to hang.

For complete instructions and many more ideas, download my e-book  
Seeing Stars: a Zentangle Constellation  
available in my Etsy shop: <https://www.etsy.com/shop/TangledUpInZentangle>

TIP: Tangle large so the patterns can be seen from a distance.  
The lines of the reticula are about the same as a Sakura Graphic 1  
(1mm) pen.
